# What we do

As professionals in various fields related to the Ocean  
We promote **Ocean Literacy** – knowledge about and respect for marine ecosystems and people of the sea.

**World Ocean Day** activities related to the annual UN motto.

Support operationalising the Small-Scale Fisheries Guidelines and related activities to support SSF as guardians of future sustainable fisheries – through the **SSF Academy**

# Connect policy to action 'on the ground'

Everywhere it needs **participation in governance with economic and life perspectives for young people** to build good futures in their countries .

## Some necessary steps:

- People to **know their rights**, e.g. the Guidelines to secure sustainable small-scale fisheries
- Video on the **SSF Guidelines** and gender equity in **Pidgin English, Wolof, Fante** done with partners in Senegal, Nigeria and Ghana
- Support healthy ecosystems by **taking out less than can regrow**

# Together achieving more

Regular cooperation with

==> Fish Party in Nigeria

==> Bénévoles Océan, Cameroon

We also collaborate with other organisations in the sub-region, e.g.

==> Ghana Boat and Fishing Gear Owners Association

==> Hen Mpoano, Ghana

==> SWAIMS and G7++FoGG

Use modern digital means to give access to more people.

Example: **Let the juvenile fish grow to reproduce** – use the QR code to download the information we provide free of charge from the global info system on all fish species - the FishBase Guide app for Android.
